Building Operator Certification (BOC) LEVEL I Training from Ameren Illinois

Building Operator Certification® (BOC) is a nationally recognized training and certification program focusing on energy-efficient building operations and preventative maintenance procedures. Independent research shows that BOC operators consistently improve comfort and save money and energy in their facilities — up to \$20,000 a year — thanks to energy conservation projects, air quality improvements and other initiatives.

COURSE DETAILS

LEVEL I: Building Systems Maintenance

- Requirements** | It is highly recommended that applicants for certification have a high school diploma or GED and must have one of the following:
