

APEC February Meeting Announcement!

Topic: High Performance Space Heating for High Bay Buildings

Speaker: Randy Niederer, Energy Ambassador, Cambridge Air Solutions

Randy has spent the past 20 years in the residential, commercial, and industrial HVAC industry. As the Energy Ambassador for Cambridge Air Solutions, he works with both electric and natural gas utility organizations throughout the United States promoting energy efficient HVAC solutions that work to reduce the carbon footprint in commercial and industrial facilities.

The presentation will focus on High Temperature Heating and Ventilation (HTHV) technology and demonstrate the energy savings and carbon footprint reductions available for HTHV in many different facility applications.

When: Noon, Friday, February 10th

Where: virtual presentation – online, see call in details in email

Cost: No fees

RSVP/Questions: Bill Auksel, 217-333-1783

Auksel@illinois.edu

Agenda:

11:50-Noon Participant Call-In Timeframe

Noon Chapter Notes/Announcements

12:05 pm Presentation (typically 20-30 minutes)

Questions to follow, event to conclude by 100:pm

Association of Professional Energy Consultants “Bridging the Technology Gap”

<http://apecmidwest.com/apec-chapters/southern-illinois/>

Our members are energy engineers, consultants, facility managers, academia, manufacturers and sales representatives, nonprofit executives, and more! Our membership is drawn from major corporations, small energy service firms, investor-owned utilities and cooperatives, hospitals, universities, the Illinois state energy office, and leading energy/environmental organizations.
